

Company Profiles

1. Shandong Trywow Heat Pump Technology Co., Ltd.

Shandong Trywow Heat Pump Technology Co., Ltd. is a member of China Institute of Refrigeration and China Refrigeration and Air Conditioning Industry Association. It specializes in heat pump integration, waste heat utilization, and cool water freezing. Its leading products include heat pumps, industrial water chillers, shell-and-tube heat exchangers and waste heat utilization equipment.

2. Shandong Tongli Hardware Electromechanical Co., Ltd. & Zibo Luzhong Hardware & Electromechanical Market Development Co. Ltd.

Shandong Tongli Hardware Electromechanical Co., Ltd. is a leading enterprise in the field of electro mechanics logistics in Shandong. It concentrates on the development of the hardware and machinery market, as well as property management. Tongli has successfully built strong relations with over 500 domestic and foreign traders, and represent over 70 domestic and international brands. Tongli became a company limited by shares which consists of Shandong Tongli Hardware Electromechanical Chain Limited and Zibo Luzhong Hardware and Electromechanical Market Development Limited as subsidiary corporations in 2010.

3. Shandong Huapu Electric Motor Technology Co., Ltd.

Shandong Huapu Electric Motor Technology Co., focuses on the research, manufacture, sales, service and international trade of electric motors. It specializes in high-power motors, high efficiency, ultra-efficient motors, variable frequency motors, switched reluctance resistance, energy saving motors and control systems, as well as high-precision all-steel gear motor drive systems. Huapu is also known for compressors, refrigerators, fans, pumps, engineering machinery, forging machinery, large-scale machine tools, textile machinery, foundry machinery, mining machinery, plastics machinery, and other supporting industries. Huapu exports to over 20 countries.

4. Shandong Zhongchuang Piston Manufacturing Co., Ltd.

Shandong Zhongchuang Piston Manufacturing Co., Ltd. is high-tech company specializing in the research, development and production of high-power diesel piston, cylinder covers and cylinder liners used in marine diesel engines, internal combustion diesel locomotives, gas internal combustion engines, and diesel-electric sets. Key products include nodular cast iron, steel roof iron group, steel roof aluminum piston, nodular cast iron and vermicular cast iron cylinder cover and various alloy cylinder

liner. Shandong is seeking cooperation projects on capital and technology, seek supporting cooperation on core components such as piston, cylinder cover and cylinder liner used in diesel and gas combustion engine industries, and cooperation with parts operators in the above-mentioned fields.

5. Zibo Qilu Welding Industry Co., Ltd.

Zibo Qilu Welding Industry Co., Ltd. is Shandong province's biggest enterprise producing welding consumables. The company has nine categories of welding consumables, with more than 160 types of products. The products are found in shipbuilding, machinery, chemical industry, pressure vessels, bridges and buildings. Qilu's products have been awarded provincial and ministerial product awards, and approved by LR (UK), ABS (US), GL (Germany) and CCS (China). Qilu welding electrodes were appointed Shandong provincial "Inspection Free" products in 1997. Qilu welding consumables are sold both at home and abroad in France, Iran, Malaysia, Hong Kong and other countries.

6. Zibo Yifeng Mechanical Engineering Co., Ltd.

Zibo Yifeng Mechanical Engineering Co., Ltd. designs and manufactures gas furnaces and gas desulphurization equipment. The company is committed to clean coal technology R&D. Single-piece and two-piece cold and hot gas stations produced by the company are widely used in metallurgy, ceramics, building materials, glass, chemical industry etc. The company ISO9001 certified.

7. Shandong Liuhang Reduction Gears Co., Ltd.

Shandong Liuhang Reduction Gears Co., Ltd. is the largest transmission equipment manufacturer and supplier in Shandong province. It is a leader in steel tube equipment for metallurgy industry and vacuum-extruder supporting facilities for the building material industry. The company has annual production capacity of 5,000 sets of gear reducers. Main products focus on various kinds of gear reducers in different series: ZDY、ZLY、ZSY series parallel axis hard tooth surface gear reducer; JZS series three-shaft extruder special reducer; CKJ series special reduction gears in steel tube industry. The products are widely used in building materials, metallurgy, chemicals, papermaking, petrochemicals, hoisting, water conservancy, shipping industry etc. The company has 21 patents. The Liuhang brand of reduction gears is highly recognized.

8. Shandong Wanfeng Coal Chemical Equipment Manufacturing Co., Ltd.

Shandong Wanfeng Coal Chemical Equipment Manufacturing Co., is a growing company that manufactures coal gasification equipment and develops complementary technologies. The company focuses on scientific and technological innovation, with over 101 patents, of which 5 are for invention. Hundreds of gas

stations established by “Wanfeng” are widely used in metallurgy, nonferrous metals, building materials, ceramics, glass, fireproof material, chemicals, machinery and other industries. Their products are in 26 Chinese provinces, and exported to more than 10 countries such as Russia, India, Vietnam, Mongolia and Indonesia.

9. Shandong Xinke Huineng Co., Ltd.

Shandong Xinke Huineng Co., Ltd. is a company that specializes in development patterns in financial investments import and export trade, and engineering design and construction such as high-end valves, decoration, fire control, and other diversified industries. “People foremost, Talent oriented” is the management’s philosophy, and is committed to expanding its markets at home and abroad.

10. Shandong Tongyunfeng Trading Co., Ltd

Shandong Tongyunfeng Trade Co., Ltd. is a subsidiary of Shandong Xinke Huineng Co., Ltd., its main business focuses on sales of fire protection equipment, hardware and electrical equipment, office furniture, household appliance, auto spare parts, and building materials. The company intends to introduce high-end fire protection equipment from abroad.

11. Shandong Ruicheng Chemical Equipment Co.,Ltd

Shandong Ruicheng Chemical Equipment Co., produces all kinds of open glass lining reaction tank and accessory equipment, carbon steel, stainless steel and other non-standard equipment, and grade 1&2 pressure vessels. Their main products include various kinds of glass lining reaction cans, glass coating, carbon steel, stainless steel reaction tank, storage tank lining rubber and other chemical equipment widely used in petroleum, chemical industry, light industry, medicine, textile and other industries. Their products have been sold throughout the country and have been exported to India, Saudi Arabia, Brazil and other countries.

12. Zibo Waite Steam Turbine Co.,Ltd

Zibo Waite Steam Turbine Co., produces two types of miniwatt steam turbines: drive steam turbines and power generation steam turbines. Their products are widely used in petrochemical industry, power generation, metallurgy, building materials, light and textile industries, waste heat power generation, waste power plant and alkene gas-steam co-circulation. Their products are exported to many countries, such as Thailand, Brazil, and Turkey.

13. Zibo Boshan Datong Water Pump Co.,Ltd

Zibo Boshan Datong Water Pump Co., is a designated water pump manufacturer by

the Shandong Machinery Bureau. Their main products include fine pumps, air-conditioning pumps, submersible sewage pumps, chemical pumps, stabilized pressure pumps, horizontal centrifugal pumps, and mining pumps.

14. Shandong Junfu Furniture Co., Ltd

The company is a professional furniture manufacturer that focuses on design, production, sales and service of Chinese carved hand crafted rustic furniture. Its furniture combines Chinese classical craft culture with a modern aesthetic. The company adheres to a principle of selecting high quality materials for its products.

15. Shandong Hysan Road and Bridge Mechanical Technology Co., Ltd.

Shandong Hysan Road and Bridge Mechanical Technology Co., is company that specializes in casting steel. More specifically, Jaw Crusher parts, such as crusher frame, dynamic jaw, front board. In addition to their casting business, Shandong Hysan Road and Bridge Mechanical Technology group produces several different products such as carbon and sulfur analyzers, spectrum analyzers, magnetic particle flaw detectors, and digital ultrasonic detectors.
